**PRIMARY EXAMINER**

Claims 1-8, 10, 11, 13-16, 20, 33, 35, and 46-69 are allowed over the prior art of record and in light of applicants' arguments.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Please delete page 8 of the specification starting with "still further aspects of the invention are evident in the claims-like description of the invention as follows:" until page 25 that ends as follow " These and other aspects of the invention are evident in the drawings and in the description that follows."

The following is an examiner's statement of reasons for allowance: The prior art fail to teach, among other limitations of the claims, due to an anomalous traffic condition, initiating diversion of traffic destined for the victim by a first set of network elements external to the set of potential victims to a second set of network elements external to the set of potential victims; and selectively passing a portion thereof to the victim. In another embodiment, the prior art fail to also teach an input for receiving traffic from the network, an filter coupled to the input, the filter selectively blocking traffic originating from a source suspected as potentially causing the overload condition, a statistics module that is coupled to the filter and that identifies traffic statistically indicative of having originated from source potentially causing the overload condition,

and an output coupled to the input for selectively passing on to further elements in the network traffic not blocked by the filter. It must be noted that all the other claims are similar in concept.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frantz B. Jean whose telephone number is 571-272-3937. The examiner can normally be reached on 8:30-6:00 M-f.
